EDUCATION

2022 - 2026

IQRA UNIVERSITY

- Bachelor's in Computer Science

2019 - 2021

SIR SYED GOVT. COLLEGE

- Higher Education

TECHNICAL SKILLS

FRONTEND

React.js , React Native, TypeScript ,
JavaScript (ES6+), HTML5 / CSS3 ,
TanStack Router, Responsive

Design, PWA

BACKEND

Node.js , Express.js , REST API
Development , Authentication (JWT,
Sessions), Real-time WebSocket
(Socket.io)

DATABASE

MongoDB, SQL Server, MySQL,
AWS (VPC, EC2, RDS, IAM), Nginx,
PM2, Docker, Linux/Ubuntu, Let's
Encrypt SSL

TOOLS & DEPLOYMENTS

Git, GitHub Actions, CI/CD, Vercel,
Netlify, Railway, Docker, GitHub,
Hostinger VPS

PROFILE SUMMARY

Full MERN stack Developer with hands-on experience building and deploying scalable web applications. Strong in backend API development, authentication systems, and cloud deployment. Experienced in React, Node.js, MongoDB, and modern JavaScript frameworks. Passionate about building secure, production-ready applications and solving real-world technical challenges.

WORK EXPERIENCE

Freelance MERN Stack Developer — Self-Employed | 2026–Present

- Built multiple full-stack apps using React.js / React Native and Node.js (Express).
- Led a 4-member team to develop a Hotel Management System; designed ER diagrams and optimized SQL (↓ data redundancy 30%).
- Implemented CI/CD pipelines for personal projects using GitHub Actions.

Craftech Software House — React Native & WordPress Developer (Outsourced)

- Worked as an outsourced developer, building and maintaining websites and applications using React Native and WordPress.

SOFT HOUZE (Pvt.) Ltd. — Junior WordPress Developer (Intern) jul 2025 – Nov 2025

- Assisted in developing and maintaining WordPress websites, customizing themes and plugins for project requirements.
- Performed UI adjustments using HTML, CSS, and JavaScript and collaborated with the team to troubleshoot issues.

PROJECTS

Safargo — Integrated Real-Time Ticket Booking System (FYP)

Full-Stack Cross-Platform | React Native + Node.js + SQL Server

Co-developed a real-time flight and train ticket booking system with cross-platform support (Android + Web)

- Built scalable backend APIs with Node.js & Express
- Engineered revenue-based redirect tracking to monitor booking conversions
- Designed admin panel for analytics and performance monitoring
- Implemented session tracking, RBAC, and authentication
- Collaborated using Git in agile-style workflow (2-3 developers)
- Tech: React Native • Node.js • Express • SQL Server • JWT

Maxis Energy — Solar Company Website & Admin Platform

Full-Stack | React + Node.js + MongoDB | Production VPS

Designed, built, and deployed a production full-stack web platform for Maxis Energy, a solar installation company in Pakistan.

Public marketing website with project showcase and testimonials

SPECIALTY SKILLS

Cross-platform development (Web + Mobile)

Backend security (encryption, parameterized queries) Cloud infrastructure (AWS VPC networking) Real-time systems (WebSocket, monitoring dashboards)

CERTIFICATION

- Diploma in Web3 & Metaverse | GIAIC, Karachi | 2024–2026 | (Expected)
- Certified Digital Marketer - Iqra University (26 JULY 2025 - 30 JULY 2025)
- Certified Ethical Hacker - NED university (2024)
- Participation in ElectroBuild Competition - Iqra University (2023)

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Adaptability

LANGUAGES

- English (Fluent)
- Urdu (Fluent)

- Custom admin panel (CRUD) for managing projects, events, certificates
 - Self-hosted on Hostinger VPS: Nginx reverse proxy, PM2, Let's Encrypt SSL
 - MongoDB with automated daily backups and disaster recovery
 - JWT-authenticated admin panel with image/video upload (Multer)
- Tech: React • TanStack Router • Node.js • Express • MongoDB • Nginx • PM2
- Live: <https://www.maxisenergy.com.pk/>
- Github: <https://github.com/bushaa-sss/maxis>

MediTrack — Healthcare Management System

Full-Stack | React + Node.js + MongoDB | Role-Based Access Control

Built a healthcare platform with multiple user roles (Doctor, Receptionist, Admin) and enterprise-level security.

- Role-based dashboards for Doctor, Receptionist, Admin workflows
- Appointment booking, medical records, and prescription management
- Implemented JWT authentication and role-based access control
- Admin analytics and user management features

Tech: React • Node.js • Express • MongoDB • JWT

Live : <https://medi-track-lovat.vercel.app/>

GitHub: <https://github.com/bushaa-sss/MediTrack>

CampusConnect AWS Deployment — Cloud Infrastructure Case Study

AWS Infrastructure | VPC + EC2 + RDS + IAM + Security Groups

Designed and documented production AWS infrastructure for campus event platform.

- Multi-AZ VPC with public/private subnets and NAT gateways
- RDS MySQL in private subnet (zero internet exposure)
- EC2 Auto Scaling Group behind Application Load Balancer
- Security groups enforcing least-privilege access
- IAM roles with MFA, automated CI/CD with CodeDeploy
- CloudWatch monitoring and SNS alerts

Tech: AWS EC2 • VPC • RDS • IAM • ALB • CloudWatch • CodeDeploy

Medi Analyses — AI-Powered Clinical Decision Support

Full-Stack | React + AI APIs + Healthcare | Live Product

AI-driven clinical intelligence platform for lab report analysis and prescription validation. Patient profiles with allergies/conditions, multi-file uploads, dosage safety checks, and AI-powered interaction warnings.

Field-level encryption for PII. Solved handwritten prescription parsing via manual fallback and API caching for cost efficiency.

Tech: React • AI APIs • OCR • Encryption • Local Storage
